N. HOLMES, Claresholm

We will talk of Nothing  
But clothing this week.

Our Stock Is Now Complete  
of Clothing.

from our natty two piece goods to our more dressy stuff and our prices are right.

To Plain suit \$15.00 to \$20.00

Three-piece suits from \$25.00 to \$28.00

Also the best line of boys Ready-To-Wear clothing in Canada, "LION BRAND."

Carl J. Braren.

## YORKTON IS A CONCRETE EXAMPLE

The Review is in receipt of a communication from the town clerk of Yorkton, Saskatchewan, confirming the news despatch recently published that the fire-insurance rates have been reduced 25 to 35 per cent. Yorkton's assessment is \$1,100,000 and its tax rate 7 mills, of which 3 mills are to meet the debenture debt. Does any one suppose that 25 per cent cut off the fire insurance rates does not more than pay the debenture charges. The clerk in writing says the town has greatly benefited by the water service and has grown rapidly.

A friend writing to the Review says if you wish to give an example of what progress a town can make once water is installed I think you can safely refer to Yorkton, which is ALMOST DOUBLED ITS POPULATION due

ing the last two years and is now the leading town of North-Eastern Saskatchewan."

The Review hopes during the progress of the campaign in Claresholm to find several concrete examples of the benefit to small towns of installing water service and giving Yorkton and Estevan, Saskatchewan are installing water systems this year.

Among the towns which rank with Claresholm as to size and values which have already installed water systems are Moosejaw, Airdrie, Indian Head, Maple Creek and Vonda in Saskatchewan; Gethery, Boissevain and Selkirk in Manitoba.

Claresholm would surely not be satisfied to rank second to any of these places.

## THE MONEY ASKED WILL BE SUFFICIENT

"What have you to say in reply to the allegation that the amount of the debenture by-law will not cover the cost of the proposed waterworks and lighting system?" said a representative of the Review to Councillor Barclay the other day.

"I am very positive it will!" replied the Councillor. "I saw Engineer Arnold in Lethbridge and made a

special point of putting that very question to him. Mr. Arnold gave me positive assurance that the money asked will be sufficient and I have every faith in Mr. Arnold's ability. The people of Claresholm may rest assured that the council are giving their best thought to this project, and no mistake will be made."

Mr. Cornwall did not think of the cost of the proposed waterworks and lighting system" said a representative of the Review to Councillor Barclay the other day.

"I am very positive it will!" replied the Councillor. "I saw Engineer Arnold in Lethbridge and made a

special point of putting that very question to him. Mr. Arnold gave me positive assurance that the money asked will be sufficient and I have every faith in Mr. Arnold's ability. The people of Claresholm may rest assured that the council are giving their best thought to this project, and no mistake will be made."

The public meeting held in the I.O.O.F. hall on Thursday night last to discuss the projected waterworks and electric lighting system was well attended and those present were of the view that Mr. R. Walsh, president of the Board of Trade presided and in opening the meeting expressed himself strongly in favor of the work. He felt it almost imperative for Clareholm to install a water system if it is to maintain its supremacy. The coming of more mills had a big bearing on the question and the President of the Board of Trade said that the people wanted to take a larger view than the paying of a few more cents in taxes. He called on Mayor Frost to explain the proposal of the council.

His Worship was graciously received and delved right into the question showing what had been done so far. He referred to the walls on the east side of the town which were in a dilapidated state, repair costing and they are utterly inadequate to the demand. Mr. Frost then took up the different proposals showing that the gravity system was impossible and the council had to fall back on the pumping system. He quoted the engineers estimate and maintained that the amount being asked for would be the best.

The Mayor also dealt with the estimated revenue and showed that without any marked increase in consumption over the present very inadequate system the interest and yearly payments would be easily met. In answer to questions His Worship dealt with the sewerage issue and said the council had not neglected that.

Mr. Frost then turned his attention to the pumping system. He engaged in superintended the construction of the waterworks system, has promised to present a plan for sewerage without extra cost for his work.

Several interlocutors took part, nearly all favorable. Mr. James Clark, dry-goods merchant, strongly supported the council and intimated that the town folks by law were destined to wonder seriously consider leaving Claresholm. Others share the same intentions.

Mr. W. A. Cornwell, manager of the bank of Commerce, made an urgent appeal to all well-wishers of Clareholm to support the by-law. He pointed out the great benefit a water supply would be and felt that it

would attract many to the town.

Claresholm should be given better facilities for shipping stock. It seems preposterous that the bulk of the stock should be taken to Cayley and go to Cayley for shipment. There is a problem for the Board of Trade.

## THE UP-TO-DATE STORE

R. L. WALSH

Our stock of Ready to Wear Skirts is now very complete. We can give you the latest styles in Panamas, Venetians, Broadcloths etc., at very reasonable prices.

We also have a splendid range of Ladies Rainproof and dust coats, the very latest patterns and styles.

Our dress goods stock is strictly up to date, you will find the the tastiest and nattiest designs and colors to be had anywhere.

In our Men's Dept. ask for anything you like--we have it. Men's fine soft front shirts--usually sold at \$1.50, our price \$1.25.

Our shoe department is unexcelled. Give us a trial when your footwear needs renewing, you will not be disappointed.

Our Grocery Dept. is fully stocked with the best.

Try our Queen Quality Olives--nothing better as an appetizer.

Robin Hood Flour - - - - - Rising Sun Flour

## Square Deal To Everyone

See how you fellows who have land for sale, list it with us if you want to sell. We are not the oldest firm in town but we can't tell whether we are the best till you have tried us. A square deal is our motto and whenever you find us doing anything else, tell everybody you know about it, if we are crooked we want it known. We never charge more than \$1.00 an acre commission and we do not take options on the best deals and make several dollars an acre with your money. You get the best we have got, as we get paid. We believe in the Claresholm district. It is the garden spot of Alberta and we can sell you land and you can try.

We will help you get the best deal in the world of the Great West. Life Assurance Co. and we can fix you out with loan if you need it. Mr. J. A. Stubbs will always be in the office to attend to business. Ollie in Vaughn's barber shop.

S. L. FRASER, Agent.

## TO FARMERS

An Exceptional Offer in Choice Lands  
In the Famous High River District

Messrs Collyns, Alley & Co.

Offer for sale a block of land, either in quarter sections or sections, or any quantity to suit purchasers, at \$100 per acre, payable in crop payments, or, in the event of the purchaser not wishing to cultivate the soil, to leave it idle or stock it, all required is payment of interest half yearly. We will make no reduction of principal until the land is cultivated, except first payment, which is never due. The land is from 12 to 15 miles west of Nanton in some

soil, rolling, with 60 per cent culturable, a heavy black loam, well watered, evidently suitable for stock raising or mixed farming.

# The Opal Serpent

By FERGUS HUME,  
Author "The Mystery of a Haunted Cab."  
"The Mandarin's Fan," Etc.  
Copyright, 1920, by G. W. Dillingham Company.

(Continued.)

"Well, mate," said the captain, sipping another glass of rum. "You see the lady had come earlier and had been put to bed. I was up at 6 o'clock this morning myself, being drinking in this very room along o' Krill. But he saw her," added Jessop emphatically. "I heard him say as if he was surprised, which he was, that he had, as he wanted money and the missus kept him tight."

"It was a large sum of jewels?"

"Travelin' jewels once," said the captain. "Bless you, he could be up a precious soon as me. But he sat down again, and I never thought he'd then get out of the room, when he had to go away for perhaps a quarter of an hour.

"Did he mention the opal brooch again?"

"Yes," said Jessop, "but he got so drunk that he began to show fight, as he always did when boozey, though he'd just chawed when he was sobered, when he'd had a raw, to sit to my hammock, and cut upstairs. Then I went by mistake into the room, and saw the lady, carrying a comb and combing her hair. She post stood dead, with a silk handkerchief round her neck. I shouted out then, 'What's all this?' I took his brooch back, and I did. I found Krill had cut it off his wife tell you?"

"Oh, she was lying on the floor insensible where he'd knocked her down. And she was dead," said Jessop, "she was lying in the corner with her lips fastened together with the brooch."

"What?" cried Krill, starting to his feet. "She was as her-the same as Norman's was?"

Jessop nodded and drank some rum. "Normie once sick, it did. I took him down to the doctor, and he sent me my pocket. Then the kid said her father had fastened his tie together," said Jessop.

"She'd been killed," I brought Mrs. Krill round, and then left her with the kid. I was with her when the police found me there. I told them what I tell you."

"And you're still holding the brooch?"

"Well, I didn't confess Jessop coolly," said as the mother said nothing. I didn't see why I should tell her. So I went to Stowley and pawed it, then took a deep sea voyage for a year. When I come back, all was over."

"Do you think Krill murdered the woman?" asked Hurd, passing over the momentous fact that Jessop had taken the brooch.

"He said he didn't," replied the man with emphasis. "I truly believe he did, as he said, but he was sometimes with mad and drink and out of the room. He wanted the brooch, I see, though why he should have lost it, I can't tell. The kid's mouth with it I can't say."

"When did you come across Krill again?"

"In," said Jessop, drawing his hand across his mouth, "twas this way, d'ye see, when I came across here, and a couple of weeks ago, I met him again."

"Gretna Hall," said Hurd, pointing to the telegram.

"With them," said Jessop, staring. "And I hated him just with his eyebrows and his sneer ways. He loved the kid, not a good girl, gal, as you know, and some time he came to me. Thus it came about that she watched Mr. Grevon Hay for many a long dark night, and never an answer to the question, when she was to be married in an embassy of the law. Consequently when Aurora asked him to a card, he agreed to go. Miss Stowley, who filled this necessary office, was a dull old lady who dressed especially for the card, and she started, in the phrase of the professor, "the cover of her own" and rapidly made money.

Her great faults, among others, were vanity and extravagance, so she was always in want of money, and when chance offered, through her brother, to make say she was not married, she accepted it.

Thus it came about that she watched the Krill boy, and he came to her, and he and she had a talk. Miss Stowley, who filled this necessary office, was a dull old lady who dressed especially for the card, and she started, in the phrase of the professor, "the cover of her own" and rapidly made money.

"Reecot, I know. Didn't you wonder when I came across here, and a couple of weeks ago, I met him again?"

"No, I didn't," snarled Jessop, who was growing angry. "I know old Tink's ways, and that's all I care about. He didn't ought'er have it. I wanted it, and I got it back. That's all I care about. It was gone, but he wrote to the agent as bought it!"

"Sam Beech of Wargrave, in Essex."

"That was him; but I heard he'd given it to her. You see, then, when Krill heard of the one-eyed man fainting at the sight of the brooch she knew 'was her husband, as he'd done it, when he was sober."

"Did she go to him?"

"With him," Jessop shovled. "I don't rightly know what she did, but she went up. I don't think she saw Krill at his shop, but she might have seen that Paul was there. Mr. O'Hea's he yes, and a dirty little o' Hea's he yes."

"It's hard to himset. I thought Paul knew about the women beforehand. No wonder he stuck to

them and gave poor Miss Normie the go-by." He rubbed his hands and chuckled. "Well, we'll see what will come of the old man."

"There isn't much more to tell," grumbled the captain. "I heard of this, and I wasn't meant to hear. I think he got money out of Krill by saying I'd tell about the murder of Lady Rachel."

"You are a scoundrel," said Hurd coolly.

"I was 'ard up," apologized the captain, "or I wouldn't, not me. I'm straight as an arrow when in cash. S' I went up in June."

"On the 6th of July?"

"If that was the date of the murder, yes, and I had to leave round until it was dark and then slipped through that side passage at 8 o'clock to see Krill."

"How did you know where to find him?"

"Why, that's how I knew about the murder, and I had business in a cedar closet. S' Krill let me in, thinking I suppose I was a customer. He'd been drinking a little and was bold enough to say he'd been drinking. When he'd killed Lady Rachel he swore he was an innocent babe and cried, the drunks."

"The same as it died out of you lately?"

"Go on," said the captain, "the reason is that Krill he's a heathen. I don't think he's a Christian. I said he was a customer. He'd been drinking a little and was bold enough to say he'd been drinking. When he'd killed Lady Rachel he swore he was an innocent babe and cried, the drunks."

"The same as it died out of you lately?"

"Go on," said the captain, "the reason is that Krill he's a heathen. I don't think he's a Christian. I said he was a customer. He'd been drinking a little and was bold enough to say he'd been drinking. When he'd killed Lady Rachel he swore he was an innocent babe and cried, the drunks."

"The same as it died out of you lately?"

"Go on," said the captain, "the reason is that Krill he's a heathen. I don't think he's a Christian. I said he was a customer. He'd been drinking a little and was bold enough to say he'd been drinking. When he'd killed Lady Rachel he swore he was an innocent babe and cried, the drunks."

"The same as it died out of you lately?"

"Go on," said the captain, "the reason is that Krill he's a heathen. I don't think he's a Christian. I said he was a customer. He'd been drinking a little and was bold enough to say he'd been drinking. When he'd killed Lady Rachel he swore he was an innocent babe and cried, the drunks."

## A GRATEFUL WOMAN

Tells of the Remarkable Cure Dr. Williams

Pink Pills Wrought in Her Case—  
Had Undergone Four Operations

Holes Without Help

When women approach that critical period in their lives known as the turn of life, they do so with a feeling of apprehension and anxiety, not in the manner in which they pass through it, but in the manner in which they pass through it, that determines the health of their bodies. At such an important time in the life of a woman, her whole aim should be to make the experience bearable to meet the unusual demands upon it. Devotion to family should not be forgotten, but the work and worries of household cares should be avoided as far as possible. But when she is able to do this, not to mention the time to take the tonic treatment offered by Dr. Williams' Pink Pills, which build up the body and unify the whole system, enabling her to pass this critical period with safety. We give you the following account of what Dr. Williams' Pink Pills are constantly doing for suffering women.

N. B.—"Some years now I became a victim to the trouble that afflicts many of us in the same way," wrote the doctor in charge, "nothing more than a simple, safe, and effective treatment gave me relief, and I decided that this must end my affliction if I was to have any relief. During the next two years I underwent four operations, and during this time I had the attention of some of the best physicians. From each operation I emerged with a fit, but only of short duration, and then I'd drift back into the same wretched condition again. During all this time I was taking medicine to build up my system, but with no success. I was unable to get a skeleton; my nerves were utterly broken down. My blood was of light yellow color, and I was always fatigued, so that I took spells in which my lips, fingers and tongue would soon paralyse, and I could not speak or write. I suffered and waited through these two years. I was completely exhausted and thought I could not live long. I sought the urgent advice of friends I began to take Dr. Williams' Pink Pills, and after four months I was well on the better. I continued to take the pills for several months, gradually improving, until I was well, and, in the end found myself once more a well woman and enjoying the fullness of life again, as I had not known for years. I now always keep these Pills in my house, and when I am ill I take them for a few days, and they always seem to put new life and energy in me. I am especially happy now, as I am still in the prime of life, after suffering women."

Dr. Williams' Pink Pills are sold at all dealers in medicines. They cost 50 cents a box, or 10 cents a bottle. Address: The Dr. Williams' Medicine Co., Brooklyn, Ont.

**Poile Youth.**—"I acted awfully well, don't you know?" "Sister, you and I didn't seem to think so. It did not appear a bit when I came off the stage." "Poile Youth."—"Oh, but I am sure they were really pleased."

In your version of the story the other fellow makes a poor showing.

**HOW'S THIS?**

We offer a special price to Dr. Ballantyne who can't be cured by H. C. Catrill's Cure. F. J. CHENEY & CO., Toledo, O. We offer a special price to Dr. J. C. Cheney for the last 15 years, and believe him perfectly honest in all his claims. We offer a special price to carry out any obligation made by his firm.

Waldin, Kinman & Marvin, Wholesale Druggists, Toledo, O. H. Catrill's Cure is taken internally, acting directly upon the blood and tissues, curing the system. Testimonials sent free. Price 75 cents per bottle. Sold by all drug-gists.

**Take Hall's Family Pills for Constipation.**

Several years ago the late Sir Francis Lockwood got a terrible fit of constipation. One day, some time afterward the judge met him and said: "Well, Lockwood, that was a good fit, wasn't it?" "Yes, sir, was that the answer? I had three offend me, and I think I selected the best."

The trip was made by an incident. Col. Broke, a Welsh military secretary, a rhinoceros charged the elephant ridden by Col. D. M. Chace, and Col. Broke, in his howdah so violently that his right arm was fractured in two places. The British Ambassador, who was aghast at the sight, said: "It is practically impossible for the sheep on which one eats to sustain such a blow and still have an appetite for live mutton apparently to be sustained. They are too fat."

Lord Minto returned to Calcutta a short time ago, the conclusion of his tour in Asia.

A small sum of good money, two feet high, was given to the Queen's Royal Regimental Band at Sandringham. There were contributions invented for his benefit.

At the meeting of the British Foreign Office, Mr. Grey, the Foreign Secretary, told the Foreign Minister that he had been asked to resign.

"I know what I wish I was, mother," he said one day, when his own brother had gone away and the little ones across the street were all.

"Yes, dear mother, I wish I could help you to be, Harold; mother will help you, I'm sure to play soldier!"

"No, mother, I wish I was a full-fledged man. I just wish I was two little dogs, so I could play together."

Although there was no sort of toy which could be bought which Harold had not already got, he still had his satisfaction.

"I can never be without it now,

Yours gratefully,

MRS. C. D. PRINCE

Nauwigewauk, Oct. 21st.

**Harold's Wish**

Although there was no sort of toy

which could be bought which Harold had not already got, he still had his satisfaction.

"I know what I wish I was, mother," he said one day, when his own brother had gone away and the little ones across the street were all.

"Yes, dear mother, I wish I could help you to be, Harold; mother will help you, I'm sure to play soldier!"

"No, mother, I wish I was a full-fledged man. I just wish I was two little dogs, so I could play together."

## MEDICAL COLLIERS.

How They Cure Blindness and Set Broken Limbs.

To Scotland belongs the peculiar distinction of having produced quite a number of medical men in recent years who, though with any medical training whatever, have effected cures which are the equals of those of the cleverest physicians and surgeons of the day.

The most recent series of the reminiscences of Lady Priestley, whose husband, Sir William Overend Priestley, has been a member of the House of Commons for many years, mention was made of Haughey, a Highland peasant, who became the most popular man in the whole country.

Bar, the "Miracle Worker," five years ago, a well-known master of bloodless surgery, work in which he excelled at the pit-head, but the mystery of anatomy always had a great attraction for him. At the age of nineteen he exhibited a wonderful power over bones and joints, and with his skill and knowledge, with extraordinary success. He ultimately rose to the position of colliery medical officer, and in the coalfield which he gain through pursuit distinguished himself and other miners from whom he was forced to relinquish his calling, and he died doing him entirely to surgery.

And such was his success that hundred thousand miners throughout every day of his life he became the Mecca of cripples, one of his patients being a youth of nineteen who for two years lay a helpless invalid with a curved spine, and another being a man of nearly a hundred, of whom he made a complete recovery.

Such was his success that hundred thousand miners throughout every day of his life he became the Mecca of cripples, one of his patients being a youth of nineteen who for two years lay a helpless invalid with a curved spine, and another being a man of nearly a hundred, of whom he made a complete recovery.

Another wonderful Scottish bloodless surgeon is James Wallace of Tayport. Fife-shire, known as the "lame man of Tayport," he has performed hundreds of cures standing to his credit, which are quite as remarkable as those of Haughey. He has also treated his relatives and the work of his father.

No proper receipt is given to the passengers, which makes fare. The passengers should al-ways be ferried in good instead of wasting the valuable time.—Standard of Empire.

## EDITORIAL DIFFICULTIES.

In Outlying Parts of Empire They Try to Score Big.

The editorial chaff of the smaller Outposts of Empire must at times be anything but an easy one. We arrive at this generalization after perusing a journal from the Gold Coast, the district correspondent of which, though he has paid his dues, has contributed on Ruskin's three-page sentence, or Dr. Guiness' "I am a Son of a Gun" basis.

His correspondent has a sentence which begins: "Now leaving this subject behind us, we may add that the world is a very poor field for bloodless surgery work in which he excelled at the pit-head, but the mystery of anatomy always had a great attraction for him. At the age of nineteen he exhibited a wonderful power over bones and joints, and with his skill and knowledge, with extraordinary success. He ultimately rose to the position of colliery medical officer, and in the coalfield which he gain through pursuit distinguished himself and other miners from whom he was forced to relinquish his calling, and he died doing him entirely to surgery."

And such was his success that hundred thousand miners throughout every day of his life he became the Mecca of cripples, one of his patients being a youth of nineteen who for two years lay a helpless invalid with a curved spine, and another being a man of nearly a hundred, of whom he made a complete recovery.

THE ARCHITECTS COMBINE

The Calgary papers are making much of a subject dealt with by the Review a few weeks ago—namely, the combine existing among the architects of Alberta which many hold to be in restraint of trade. When the bill legalizing the Architects Association was before the legislature there was objection made to it, but it had influential support and went through unaltered. The assertion was made at that time that the architects were being given altogether too much scope and the fears expressed have been proven to be no phantom. The architects have a right to organize for mutual protection, but that right ceases when it is used to militate against the public, and is used as a lever for holding up every man, or public body, that wishes to erect a building requiring the services of an architect. It was not the intention of the Legislature that any such use should be made of the power given the architects and it would be as well for the government to take cognizance of the protest entered by the Claresholm School Board. While prosecuting a head official of the association might have salutary effect there is a more satisfactory way in which to aid the public. The Government-in-Council has extensive powers in these matters. Let the Government clip the wings of the Architects Association and prevent further offending. Finding some one official will never restrain a public body. "The remedy is very simple. An order in council will do the trick."

THE C.P.R. AND ALBERTA

A northern exchange, the name of which has slipped the writers memory, recently complained that the C.P.R. is boasting its Southern Alberta loads to the detriment of the north. While the Review at the time asserted the paragraph to the fruits of the party politics waged by a few politicians in Alberta, brevity calling for the magnificent vote given him March 22nd,

Yorkton has become the most important point in north-eastern Saskatchewan since it installed modern conveniences. People go where they get the most for their money.

Mr. Malcolm McKenzie, M. P. P., says definitely that the C. N. R. will run into Claresholm and in accomplishing this, Mr. McKenzie repays Claresholm fully for the magnificent vote given him March 22nd.

The High River man is not failing either in the switch. He is after the Yorkton boosters now for daring to say that Yorkton shipped more grain than High River. The Times is a paper of some value to the town.

An association recently formed in Calgary is agitating for a system of Medical Inspection in the schools. Claresholm has had regular medical inspection for over a year and is thoroughly done at that. Clarey should send a deputation to the town.

Now a new loading platform will be necessary owing to the fact that the new cars will hold twice as much as the old.

Will give prominence to that area, and in addition to all, the biggest part of the railway extension in Alberta during 1909 is being made in Central Alberta.

The C.P.R. is a business institution, from the drop of the hat, and has quite as much interest in boosting one part of the provinces as the other. The Review pays this tribute because it is due the big day and not because of favors. The Review does not get one-sixteenths of a cent in favors from the C.P.R. but believes in giving honest where honor is due. The C. P. R. has done much for Alberta and has had desire on the part of the company to measure up to public demands, has been due to the unforeseen rapidity of the development and the setting off of the country rather than a lack of desire on the part of the company to make two dollars where it now makes one.

Incidentally this condition of affairs makes it quite possible to advocate "more railways" without being ranked as an "enemy of the C.P.R." The Review has written a letter to Mr. Albertan and the Alberta Journal, expressing its opinion in life. As read by the Review the association protects its members from pecuniary for even the biggest club in the prairie ranks for a place in the big raid on the exchequer when any man, company or corporation is misguided enough to ask for compensation for services rendered at the post office among the architects, and as the Review requested in a previous issue to meet the demands of the association and build a school at the same time the Claresholm trustees would require to submit a supplementary by-law.

BY WAY OF EMPHASIS

Mr. Price, the general superintendent of the C.P.R. at Calgary is sure of a statue in High River's finest park when he gets through running trains and goes to the place where "wings" are popularly reputed to be the means of locomotion. Mr. Price in an alleged interview at Winnipeg gave High River the credit of shiping the greatest number of bushels of grain in western Canada, and High River having the changes on that interview ever since. Everytime another town mentions that it shipped a few bushels the High River Times flaunts the superintendents interview and calls for help. The Review does not know whether Mr. Price made that statement, nor, but it does know Mr. Price and feels positive that he was not according High River district the honor of being the biggest money maker for the C.P.R., or the farmers, so far as grain shipments are concerned. The High River Times is a doughty champion of its own town, which reflects credit on ye editors judgment, but it should take cognizance of the assertion repeated made by the Review that the great bulk of the grain shipped out of High River was oats, and it would take many thousands of bushels of oats to equal in value the eight or nine hundred bushels of wheat shipped at Claresholm. In modern commerce value counts more than quantity. As the Review has stated there is no desire in this section of Canada's great last west to take away from High River's lustre as an oil shipping point. All the Review wishes to do is to reassert that Claresholm is the centre of Canada's greatest wheat belt and that the Sturley-Claresholm Gramma district ships more wheat now, with one twentieth of the land broken, than High River ever will ship.

The voice of the public meeting was the voice of Claresholm leading business men and it said in stentorian tones give us modern conveniences.

Yorkton has become the most important point in north-eastern Saskatchewan since it installed modern conveniences. People go where they get the most for their money.

Mr. Malcolm McKenzie, M. P. P., says definitely that the C. N. R. will run into Claresholm and in accomplishing this, Mr. McKenzie repays Claresholm fully for the magnificent vote given him March 22nd.

The High River man is not failing either in the switch. He is after the Yorkton boosters now for daring to say that Yorkton shipped more grain than High River. The Times is a paper of some value to the town.

## Gilt Edged Chance To Make Money

### Arrow Lake Fruit Lands Are a better investment than C.P.R. or any other railway or Industrial Stocks.

Purchasers will delighted with investments and are busy helping boost the district. Quicker and larger returns on a modest investment than can be made in any other line. Arrow Lakes district is ideal for fruit growing. Climate ideal, soil rich in productive quality. Market assured and transportation facilities satisfactory.

On the Arrow Lakes there is a great wealth of information and would be pleased to have anyone to see us. Arrange to see us. Here is a man destined to success from a former well known Claresholm man. Read it and absorb the moral. This successful man has tried both wheat and fruit lands. Here's what he has to say about Arrow Lakes, after a visit to the American fruit districts.

Palisade, Colorado, March 11, 1909.

Dear Mr. Freeman,  
This is a fruit country, a valley which is one solid orchard. These orchards sell at \$1000 per acre.

Land is above sea level. They have to irrigate and water costs \$100 per acre per year.

There is no reason why Arrow Lake lands should not bring as much in time as these lands.

I am satisfied that we can produce as much and as good fruit there, and without irrigation. Burton Valley will be another Palisade if the people who are interested in land there do their part."

SIGNED: Yours truly, R. W. WALLACE.

M. Freeman, General Agent.  
E. McCandlish, Claresholm, Representative.

## THE REVIEW, CLARESHOLM, ALBERTA.

### Some People get along without a spring Medicine BUT

The majority make a practice of joking at blood cleanses and tonics. Some need it worse than others, but one of us is there who wouldn't be the better for it. The REED MEDICAL CO. has a SPRING TONIC. It tones up the system, stimulates lazy appetites, stirs up digestion—and helps a person all over. You don't need to take it all summer, just a bottle to start you going right. Easy to take. \$1 a bottle.

### MEDICAL HALL, W. G. N. Johnston Proprietor.

### CHIEFLY CLARESHOLM

Rev. P. Henderson is in Calgary this week attending the Presbyterian Synod.

Mrs. Moore, Mrs. Reynolds and Mrs. Clarke of Gramma were in town Tuesday.

Mr. James McKinney is recovering from a serious attack of blood poison and will soon be comable.

The new elevators being constructed at rapid rate. Contractor Robertson bids fair to establish a record for speed.

Mr. Smith of the engineering firm of Glad and Smith is soon figuring on the waterworks system with a view to tendering.

The terrible windstorm which swept the district Sunday evening was almost of cyclonic proportions. It raised a dust storm which would have done damage in the Saharan desert.

Charles Culverton, brought by John Quist 4 miles southward with a tragic accident in a ravine. A team he was driving ran away and he was thrown on his head, apparently striking the whipple trees. He was badly gashed on the forehead and temple but lay unconscious for many hours.

Mr. John Smith, received the sad intelligence on Monday of the death at Armstrong H. C. of his sister Mrs. Richard Stevenson formerly of Claresholm. He left for Armstrong Monday to attend the funeral.

The prospects for the excursion to the Arrow Lake Orchards land on 5th is most promising. Mr. McCallum reports, and Claresholm will be well represented. The fare for the round trip will only be \$21.25 and that will be refunded to parties assuming the risk.

Mr. Alex Lemery and Miss Mamie Andrus were married on Saturday at the Catholic Church by Rev. Father Beaussold. Mr. and Mrs. Lemery went to Calgary and other points on a wedding trip. At the station they were given the usual shower of rice and confetti. Mr. and Mrs. Lemery start life together with the best wishes of many friends.

### BUSINESS GETTERS

To the Brothers of the Independent Order of Oddfellows in Alberta, and to the Public in General.

Notice is hereby given that the Independent Order of Oddfellows is not in affiliation with the Manchester Unity or the Canadian Order of Oddfellows or with any other Order using the name "Oddfellows," and that members of these latter organizations are not entitled to any fraternal recognition from members or lodges of the O. O. F.

O. E. Tidale, J. W. Mitchell, Grand Secretary.

Mr. Wm. Moffatt is in Outlook Sask. this week on a business trip.

Miles and Noble agents for the Reo, auto unloaded fire cars this week, two big cars and three trailers. The first finds the Reo, a popular car in Southern Alberta.

Vonda, Maple Creek, Moosejaw, Arcola, Indian Head, Carberry, Boissevain and Selkirk are a few of the western towns with water systems. Does Claresholm take to the timber when these towns are mentioned?

The Macleod Chronicle was on the edge of the financial precipice last week but Mr. Livingstone pulled himself together with a mighty pull and showed the sheriff the door. Mr. Livingstone has a good town and should make good.

Charnley is the most talked of town in Alberta because its always in the news. First it had the most wheat of any town in the province; then it proposed to install a winter wheat system, and now the school board is after the agricultural combine. And Charnley usually accomplishes what it starts out to do.

On Saturday last the barn of Mr. E. Henderson about 10 miles South of Claresholm was destroyed by fire. The cause is in doubt and the loss was very heavy. On Sunday morning a firebrand was found, fanned by a strong wind and started a fierce prairie fire across the road which burned a stable belonging to Mr. Rigby. There were rumors of others buildings being destroyed but owing to the rural telephone system not being in working order no confirmation could be obtained.

The "Hard Times" social given at the home of Mr. and Mrs. J. E. Bevan on Tuesday night by the Young Ladies Aid of the Presbyterian Church was a jolly event. There are no "Hard Times," but there was no intention of intimating that there is. The social was a burlesque on the times prior to the discovery of the great Claresholm wheat belt. There were a number of "hired" for earning even, one of the present day heroes in Canada. These wits amply programmed which included solos by Mrs. Tilden, Miss Telford and Mr. Moffatt. Humorous recitations were given by Mrs. Ellingson and Miss Gilmore. The orchestra appeared in hard hats and grabbed much to the enjoyment of the audience.

Mr. and Mrs. Stamer were the socialists the young ladies served dainty refreshments. Mr. and Mrs. Bevan made every one heartily welcome and their new home furnished ample accommodation for such a pleasant gathering.

### Oddfellows Anniversary

Monday, April 26th was the ninetieth anniversary of the founding of the Oddfellows in Claresholm. The service was held in the Little Bow Inn which will serve their purpose until the new hall is completed. The hall is to be built on the site of the old Sammons hall and will be used for meetings, dances, banquets, etc. The hall will be a fine addition to the town.

The service was conducted by Rev. Mr. Henderson and Rev. Mr. Argue, whose address which was delivered by Rev. Argue was based on the parable of the Good Samaritan and was most impressive.

The lesson was that friendship, love and truth, the three fundamental principles of Oddfellowship, when linked with the teaching of Christ, were the steps to ideal brotherhood, mankind and Christianity.

The hall which was furnished by the Claresholm orchestra, with the co-operation of the combined choirs, was most uplifting and added much to the strong impression made on the minds of those present.

### BUSINESS GETTERS

WATCH CARMANGAY

The Banks Open Branches in An-

tipication of Big Business--

Rush Predicted

MONDAY, April 26th was the ninetieth anniversary of the founding of the Oddfellows in Claresholm. The Union bank opened a branch on Monday and have four quarts in the Little Bow Inn which will serve their purpose until the new hall is completed. The bank manager and cashier are Mr. and Mrs. J. F. Miller, manager of the Claresholm branch, arranged for the opening of the branch which will be in charge of Mr. Thomas formerly accountant at Macleod.

On Wednesday the Canadian Bank of Commerce opened a branch under the management of Mr. H. C. Miller, building occupied by Mr. Rose on Silver street was bought and taken over on wheels, so that this bank opens the first building. Mr. Hubbard of the Gramma branch was transferred and will be associated with an accountant who is coming from Winnipeg. There is reason to believe that the Merchants bank will also establish a branch from Lethbridge.

It is understood that the townsite is to be put up at auction on June 15th by the C.P.R. and if the talk heard on the streets, in hotels and on the trains counts for anything there will be a big rush for lots in Carmangay.

## Keeping Groll Off the Grass.

By HENRY BERLINGOFF.

Copyright, 1907, by Associated Magazines, Inc.

Stub Bell was willing to admit that the cold winter was a "more important factor" than the Great Fielding, but the rich itself could not bring him an admission that any one else thought as large, least of all Douglas Groll—the junior partner.

Groll had incurred the displeasure of the old man, but had gone off to the office and since then he had done nothing to cause a reversal of Stub's opinion.

Fielding was a whosoever sort of chap whose very capacity for making friends had to be given a name of its own—the old man's name—was Groll. Every one liked him. The loyal Stub worshipped him and would have gone to the end of the earth at his bidding.

Stub had been raised from boyhood in the same number of houses at the same neighborhood as Fielding, but he had learned that there was a lot of work to be done even if the "Chancery" were nothing but a "chancery" or a "chancery." Greater care than that this no small boy can have.

Naturally when Gertrude Vance was posted up with a special favor to Fielding, he became the chief godsend in the office.

Mr. Sommer's sonorous call—*"Put it in writing!"*—had been the last, but the boy fairly jumped for Miss Vance's desk at the softest call of "Stub" and the old man's sharp call of "Get me Mr. Groll."

Stub had been waiting about before he answered the increasingly impatient call of the head of the firm.

As he entered the office he traded a knowing look to notice the familiarity with which the junior partner treated the little tyro. He had great trust in the very young recruit, but trifling imperfections without losing her place, and she could not afford to do so. She had been told to say nothing, saying up every penny against the time they should find some other subservee in home suited to those modest in coming.

They were working hand in hand toward that end, and she could only pretend to be a good girl, but the rest was carried on her shoulder whenever Groll stopped at her desk to give an order or ask a question.

She had been born to a comfortable arrangement, and he gritted his teeth impotently whenever he saw Groll moving toward the typewriter's corner, with a sly intensity that could not be beaten.

He watched Groll with a quiet attention that was not quite a stare, and the most resourceful business man would have been surprised had he realized how much Stub knew about his secret.

Stub was ever alert to gain hold of some bit of information that he could use as a club, but Groll grew wiser, and now, in his intent watch with the knowledge that the girl cared to speak to Fielding,

she always had a particular confidence in Groll, and he had the bank. The boy had two branches up-town, and even managed the receipts from the small towns and villages down by the trusted clerks and turned over to the cashier, who accepted the credit slips without question and passed them on to the postman for the bank with his own deposit ticket. The packages of his own were made into brick shapes, sealed and sent to the postmen. The postmen had been trained employees, and there never had been the slightest uncertainty.

She had been awaiting the arrival of the packages. It was his ambition to be a messenger himself some day and carry a revolver under license from the police.

The bulge in the messengers' coat pockets filled him with envy, and he was saving his time with the most punctilious avoidance of his own against that happy day when he would be intrusted with one of the leather suitcases chained to the messengers' wrists.

Then came a day when Groll went into the second-story office, and the soon after Sommer went to the cashier's cage. Here the two, after brief consultation with the latter, went to the banking desk.

"Tell you what I'll do," said Groll as he was saying as though he moved toward the cage, "I'll send it to you in the mail tomorrow and saw him bending over his desk."

"Old Mr. Fielding go to his desk after he left the office and asked Sommer for his memo, and the latter nodded an unwilling assent.

"He had a bottle of medicine that he wanted to put there. He had a bad cold."

The cashier carried the bunch of keys that were divided among all the key-holders, and they were the ones that fitted Fielding's desk. At the roll top was raised to receive the entry, and the door was closed, but still did not refrain from drawing near. The trio did not notice him approach, so interested were they in their business.

"With an exclamation that sounded very like a groan Sommer went from the bottom drawer and took out the unmentionable deposit from the North Side branch, and with trembling hand he reached for the sharp envelope that lay on the desk.

"I've had my suspicions for some time," announced Groll jubilantly, "it happens to know that old Mr. Fielding is ill. Alan Vance, who has been speculating with what they call

their 'building fund' for some time. He planned this move to get back into the office at the same old and familiar address, and I am sure he is watching him carefully, and today my suspicions were aroused."

"So I made it just right to place the blame on the cashier or the messenger boy go see first."

"The DODD'S KIDNEY PILLS publication of Groll's voice and stood on tenterhooks to observe the proceedings. Groll had the wire and the telephone and the press intact for future reference, and all three men gave an explanation of surprise when, in due course, the news came.

"Well, when his nerve failed him," suggested Groll, "he was the first to break the silence."

"Never mind," interposed Sommer, "I had the switchboard when the girl was out to lunch, and I was rubberin' on the wire when you told Mr. Beckman to fix the trouble."

"I was trying to get Mr. Fielding out of the engagement, and maybe you could break it to him."

"Well, I'll do it," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

"I'll go to him again," said Groll, "but I think he'll be here again."

Business at prices that can't be equalled in Alberta

Perfume Incubators and Breeders

**J. E. BEVAN & SON**  
Clareholm, Alta.**Machines.**

Concrete building block machines.

Concrete chimney block machines.

Concrete Mixer of 1. Side.

wall-tile manufactured by a Canadian Company. The London Concrete Machinery Co. of London, Ont., sold by

T. J. Brookbank, 212, 11 Ave., Calgary.

**Public Notice**

All citizens are notified that all jugs, elixirs, and syrups, and other premises must be thoroughly cleaned under the terms of the Provincial Health ordinance by May 15th. Neglect to do so will be followed by enforcement of the law. W. E. Wallwin M. D. Medical Health Officer.

**SPORTING NOTES**

A meeting of all association football clubs in the province has been called for Friday this week to organize a provincial association.

Nanton has organized a lacrosse club with J. M. Glendinning, M.P.P., as president.

The racing program for Calgary fair is out. They are having up \$8000 in purses.

The Claresholm team met in Moffatt's office Tuesday night with manager, W. C. Miller presiding. There was a good attendance even though the weather was not the most appropriate for the day. The potential for a strong team has been picked up and Claresholm nine will be a factor in the league. There is some delay in forming a league owing to the indecision in Nanton and High River. These towns seem to have taken no interest and the only sure thing is for us to go ahead and form a Claresholm team. It has three more leagues to be formed it will be, but the boys would like to see Nanton get in line. Arrangements are being made for a concert shortly at which a big troupe of jubilee singers will be the attraction. Mr. J. F. Reynolds was selected to the service to succeed A.A. Price resigned.

Grinnis baseball club is in good shape for starting the seasons work on Saturday. They are to play when the meadow is to be called to form a league. They favor a four team league composed of Nanton, Stavely, Claresholm and Grinnis. The general opinion is that it is up to Mr. Robertson of Stavely to call the organization meeting. The contract for fixing the Grinnis ground has been signed and work will begin Saturday. Frank Slough will likely replace Mr. Ardell as manager. The team have a "dark horse" in the back ground and will give the league a surprise when a show down of pitchers is made.

Grinnis footballers are taking a keen interest in the seasons outlook and will organize soon for work. They are heartily in favor of the Claresholm riding league.

The horsemen are hoping for favorable weather so that the track can be got in good shape for the Victoria day matinee. There will likely be a good string of entries, and some exciting events are looked for. The program is published elsewhere.

G.S. Moir, captain of the Burr Hill baseball club, was in town Tuesday ordering suits and getting the seasons pamphlet for his team.

Mr. "Bill" Donnelly who has been signed an umpire in the Western Canada Baseball League left Grinnis for Calgary on Tuesday.

**An Old Story With A Modern Moral**

Many years ago in the land of cherry blossoms and poppies there lived two frogs and a toad.

One day by necessity the frog fell into a pan of milk that carelessly had been left on the floor by the dairy maid. The unfortunate little student of mankind the foolish frog sank to the bottom and died.

In the school of life, wise frog had three maxims: "Never give up," "Success, determination, persistence and consistency." He, at least, was able to give up.

He had given up and measured stroke began to paddle. The story is an old one. You remember how the following morning the dairy maid was surprised to find in her pan a golden goblin of butter on which sat a frog croaking merrily.

Dear reader, goods without a thorough trial at forgotten's up-to-date grocery store, one door south of med and hell drug store.

**Thanks Awfully**

Since Bro. Quayle assumed control of the Claresholm Review great changes have taken place in the editorial department. The paper is now without doubt one of the highest papers in Southern Alberta.

And we won't be farry until the Review is a bright all-home made paper. Right from the Times. A paper produced for the people of my town can hardly be rivaled. It is brightly written and "blond"; instead of knocking the town. To have a "home made" paper is an art that not to be rivaled without great expense from business men.

**Palace Livery, Feed,  
and Sale Stable.**

Good driving horses and rubber-tired rigs make driving a pleasure; we supply these and horses you can ride.

Try our feed and stable accommodation; we furnish a palace for equines, and are always pleased to accommodate you.

**Vanhorn & Hutchison, Props.****The American Restaurant**

THREE CHOICE BOXES  
of our candy have been known to make a girl say "Yes!" We don't guarantee such a result in every case but we tell you it is worth trying LAWNEYS.  
OUR CANDIES  
are a combination of purity, sweet taste and delicateness. Buy her a box and tell her how appropriate such a gift is to her.

ROSE, Prop.

## More bread and Better bread —And the Reason for it

**A STRONG FLOUR** can only be made from strong wheat. Manitoba hard wheat is acknowledged the strongest in the world—and that is the kind used for **Purity Flour**.

But that's not all. Every grain of Purity Flour is a blend of high-grade and low-grade properties.

In separating the high-grade from the low-grade the Western Canada Millers make the flour as pure as possible, removing that not a single low-grade part has the remotest chance of getting in with the high-grade.

It means that Purity Flour is made entirely of the highest-grade flour parts of the strongest wheat in the world.

It means high-class, strong flour and therefore "fluff" "more bread and better bread."

Purity may cost a little more than some flours, but results prove it the cheapest and most economical after all.

WESTERN CANADA FLOUR MILLS, LIMITED  
Office, Winnipeg, Man. Mills at St. Boniface, Goderich, Brandon.**FARMERS.**

**WHAT'S THE USE** of making two or more trips around the field to plow and harrow, when you can do both operations at once by attaching

**THE KRAMER****ROTARY****HARROW**

To Your Plow.

1908 MODEL.

The use of this attachment creates a dust mulch on top several inches deep, thus breaking the capillary connection with the farmer soil below, storing moisture and reducing the maturing moisture of the ground until planting time.

**FOR SALE BY** CUMMING & LINDSAY, Claresholm

**McKenzie's Pure Seeds****In Bulk****Government Tested**

99 Per Cent Pure
